### **UNION AND GM** GET NOWHERE WITH DISPUTE

PROPOSAL TO VOTE ON STRIKE END IS REJECTED

Detroit, March 5 (AP)-General Motors and the striking CIO United Auto Workers failed to agree tonight on their proposals for a vote to end the 105-day old strike and Federal Mediator James F. Dewey declared a vote was out of the picture" for the pres-

At the same time the Auto Workers Union charged that General Motors in turning down the UAW-CIO vote proposals was guilty of "a lockout."

These developments followed a brief session between top union and corporation officials in which both sides again rejected one another's proposals on bringing continuance of the long and costly trike to a vote of the rank and

Meeting Breaks Up

has demanded 191/2.

The union insisted that the strikers also be given opportunity on the ballot to decide whether the wage and other issues go to arbitration by an appointee of President Truman.

As company and union officials broke up their meeting with Dewey, Vice-president Harry W. Anderson paused long enough in idea on the proposed back-to-work vote. He said again the company would "stand pat" on

### TELL STORY OF SUBMARINE WAR

Japan's Defeat Stemmed From Effective U.S. Undersea Drive

BY CLARKE BEACH

Washington, March 5 (AP)-This is a story the Japanese would have given a fortune to hear-the inside facts about how our navy ran the "wolf pack" submarine campaign which helped drain the life out of Japan's war machine.

It was a gigantic naval victory but until the war was over it could be mentioned only in the tersest announcements of sinkings. The utmost secrecy was essential to its

Only recently has the public been informed as to the magnitude of the war which for more than three years was waged under the sea. Now the strategy and tactics of that war can be explained in

No sooner had the Japs attacked Pearl Harbor than the Navy lung-At first the subs ranged the en-

tire Pacific ocean, with orders to on sight the way the Japanese and Germans were sinking our ships. This order was part of the overall war plan prepared before the outbreak of hostilities.

Within three weeks, by the end of 1941, the submarines had sunk eleven Jap ships. In the next year they sank 283 more. During 1943 they sank 499. In 1944 they sent down 989. By the end of the war, they had dispatched 2,637 vessels, these ships, 215 were warships, comprising 31 per cent of all Japanese warships sunk during the

#### New Electric Torpedo

Our losses to enemy submarines at one time caused grave anxiety, but they were small by comparison. We lost a total of 492 ships as a result of Japanese and German submarine action, a total tonnage of 2,909,947. Of these, fiftytwo were naval vessels, with a

Fleet Admiral Chester W. Nimfirst strategic move after Pearl Harbor was to place all submarines in the Pacific (except those with the Asiatic fleet in the Southwest) under the tactical control of one man, Commander Submarine Force, Pacific fleet. He had orders to concentrate on the

sinking of enemy vessels. This was revolutionary. Up to that time submarines had been regarded primarily as reconnaissance craft, and they had been under the tactical control of the various task for commanders.

torpedo, which leaves no wake and so cannot be easily detected. made under water attacks more deadly. Our greatest improvement, however, was in radar, istrants who submitted to preinmeans of knowing when danger board reported yesterday.

### In Memoriam

Five years of silent sorrow,
Five years of grief and pain,
Our hearts are sad and lonely,
Since you went away.
You left us so very quickly,
God called and you had to go,
You could not even say goodbye.
And Mother, we miss you so,
We often sit and think of you,
And talk of how you died,
Friends may think we have forgotten,
When at times they see us smile,
We miss you here.

When at times die see as well we miss you here,
We miss you there,
Your loving smile, your loving face,
And when we sit and think of you
For all of us you did your best,
God grant you eternal rest.

Sadly missed by her husband and children,

Edward LaFave, Delores and Doris May LaFave, Mrs. Norman LaPalm.

In loving memory of our mother and sister, Mrs. Ruth Gorham, who passed FOR SALE—80 acre farm located in Wells township. Will trade for house in town. Write Box 5731, care of Daily Press.

5731-64-3t

Wall would we give her hald to class.

Her patient face to see,

As in days that used to be,
But some sweet day we'll meet again.

Beyond the toil and strife,

> Sadly missed by HER DAUGHTER, SISTER

> > 5748-65-1t

#### Kelly Gets Ride On Fast Destroyer

Mobile, Ala., March 6. (A)-Michigan's Gov. Harry F. Kelly got a ride on one of Uncle Sam's west and fastest destroyers, the ISS Gearing, today.

The Michigan chief executive and his two sons were in a party Mobile carnival association officials and civic leaders who rethe Gearing. The 2,200-ton deroyer was assigned here during the Mardi Gras.

Kelly weathered rough waters in the Gulf of Mexico without trouble but the two young Kellys, Larry, 12, and Roger, 9, complained of seasickness.

Kelly, who arrived yesterday with his family, said he was takng advantage of an opportunity to relax after a strenuous session o the Michigan legislature. He said he planned to remain at his vacation cabin on Fowl River for about a week before returning home.

You aren't getting machinery, Mr. Farmer, because...

## PICKET LINES

have taken the place of

# PRODUCTION LINES!

... so don't blame your Implement Dealer!

Vour implement dealer had planned I and expected to have his display floor filled with new implements and tractors weeks ago. And we had planned to make them-had told our dealers and our farmer customers they would have new equipment and plenty of service parts for the 1946 spring work. And we had hoped to sell these machines at no advance in price.

#### Real Production Had Started

When the war ended, our organization bent every effort to increase production, with the result that in the last months of 1945 machinery was being built in very substantial quantities. Here are a few figures:

PRODUCTION NOV. 1945 DEC. 1945 7,432 Combines...........2,345 Cultivators . . . . . . . . . 3,482 Hay Loaders ..... 209 \*Plows ......6,185\* \*Plows are made in our Canton and Chattanooga Works, which are not on strike. January production was 7,747 plows.

Both your dealer and we were encouraged by this production picture at the turn of the year. But the strike changed all that. As you know, the CIO United Farm Equipment & Metal Workers of America called a strike in ten of our plants, on January 21, 1946.

What Is The Strike About?

Wages are a basic issue. At the time of the strike, Harvester employes were among the highest paid workers in American industry. When the strike began, the average hourly

earnings in the ten plants, not including overtime, were \$1.151/2. If present wage proposals are adopted, this figure will become \$1.33½ per hour.

When the strike began, negotiations were broken off by the Union on the issue of compulsory union membership. The Company has no desire to weaken the Union. It recognizes certain reasonable needs of the Union. But the Company does oppose compulsory unionism. It feels strongly that an employe's membership should be a matter of his own choice.

#### Material Costs and Price Relief

Wages and materials are the great costs of operating our business-together they consume all but a few cents of every dollar the Company takes in. Wages are obviously going to be high-and nobody knows just how high material costs will go.

In the face of rising costs of materials, the Company does not see how it can pay the wage increases recommended by a Government fact finding board until it has definite and satisfactory assurance from the Government that reasonable price relief will be granted to the Company within a reasonable period of time. This matter is of such importance that it will not be discussed here, but will be covered by future advertisements devoted to both prices and profits.

Speaking for our dealers and ourselves, we can assure you that no customer is more eager than we are to resume production. We are doing and shall continue to do everything in our power to bring about a fair settlement as soon as possible.

### The Washington Merry-Go-Round

BY DREW PEARSON

Washington.-If there were more men like housing expediter Wilson Wyatt around, President Truman would have easier sailing. The other day in Chicago,

Wyatt was guest speaker at a banquet of the National Association of Home Builders, 3,200 strong, all hostile, all prepared to boo at the man who proposed revolutionary building reforms in order to complete 3,000,000 homes in two years.

As Wyatt arose, the atmosphere was charged with hostility. However, he told stories, explained his program,

made no antagonistic statements. "If you gentlemen are against this program, then you don't understand it,' Wyatt said. "It's my fault for not making clear."

After 45 minutes, having won over a considerable part of the audiences, he stopped. Then for 45 minutes more he answered questions. Every inch of the way he fought for his program of lowcost housing for veterans.

Finally, when he finished, every builder in the huge dining room rose to his feet

and cheered. Prior to Wyatt's speech, the National Association of Home Builders had adopted a resolution opposing premium payments of \$600,000,000 to spur housing. Wyatt proposed these premiums to be paid to manufacturers of building materials who increased their normal production. The more they increased production, the greater the incentive payment they would receive. But the building industry, wanting increased prices, had voted emphatically against this plan.

After his speech, however, the directors of the home builders reversed themselves and telegraphed congress in support of Wyatt's plan for incentive payments as a premium to those who produced most. -PAULEY'S ENEMY-

### NO CEILING YET ON EISH WORMS

Plea From Johnson City Bait Lover Turned Down By OPA

BY ARTHUR EDSON

cheek, Felts sent this telegram to ment.

"Up to now we have not had a ceiling price on fish worms.

"The weather here is very mild and people are getting the fishing fever. We would like to know about the ceiling on fish worms.

"I might state that we have some worms that have been stall fed all winter with coffee ground and buttermilk and we think the ceiling on these well-kept worms should be more than on a worm that has roughed it all winter.

"These are very large worms,

people in Washington think of trated on distance rather than be alive out there today. I hadn't This woman apparently fell for the gag. She wrote to ask the OPA to whom she should apply if she wanted to have offspring
